

The CDC Foundation gratefully acknowledges the generous support of individuals, foundations, corporations and organizations. This support, totaling \$13.8 million in the fiscal year beginning July 1, 2003 and ending June 30, 2004, enables the CDC Foundation to help CDC do more, faster in the fight against global threats to health and safety. Every effort has been made to include all gifts and to credit the appropriate contributors correctly. If errors have been made, we apologize and invite you to contact the CDC Foundation Development Office at (404) 653-0790 or (888) 880-4CDC.

# INDIVIDUAL DONORS

## INDIVIDUAL DONORS

The CDC Foundation thanks the following individuals who made gifts of \$1 to \$999 from July 1, 2003 to June 30, 2004. Individuals who contributed \$1,000 or more are recognized separately as Mahoney Society members. Those who made memorial or honor gifts are also listed separately. CDC donors are designated with a \*. Many CDC employees contributed through the Combined Federal Campaign. (Note, however, that the CDC Foundation does not receive the names of all donors to the Combined Federal Campaign or the amount of donations from the contributing organizations.) All donors of five or more consecutive years are designated with a ♣. Individuals are listed by preferred name when it has been provided.

## THE MARGARET ELLERBE MAHONEY SOCIETY

The CDC Foundation board of directors created The Margaret Ellerbe Mahoney Society in 1998 to honor Miss Mahoney for her service to the board and her vital support of Foundation initiatives since its inception. Miss Mahoney continues to be a strong advocate for the Foundation. To honor her loyalty, The Margaret Ellerbe Mahoney Society recognizes leadership donors who have given \$1,000 or more during the year.

# PROGRAMS & PARTNERS

## PROGRAMS AND PARTNERS

*Programs listed were initiated or active between July 1, 2003 and June 30, 2004.*

### Global Health

#### Accelerated Development & Introduction Program (ADIP) for Rotavirus

To conduct surveillance of rotavirus in Asia. To assess the burden of disease, identify peculiarities in its epidemiology, create an awareness of the local importance of the disease, characterize a sample of strains in circulation, and prepare methods to monitor the impact of a vaccination program.

##### Partners and Grantees:

Program for Appropriate Technology in Health (PATH)  
National Center for Infectious Diseases, CDC

#### Asian Rotavirus Surveillance – Phase II

To establish active sentinel hospital surveillance and disease burden studies for rotavirus gastroenteritis in Asia.

##### Partners and Grantees:

GlaxoSmithKline Biologicals  
Program for Appropriate Technology in Health (PATH)  
National Center for Infectious Diseases, CDC

#### Chagas Laboratory Research Program

To fund a laboratory research assistant in CDC's Guatemala program (MERTU).

##### Partners and Grantees:

Dr. Zell Kravinsky and Dr. Emily Kravinsky  
National Center for Infectious Diseases, CDC

#### Clinic-Based Distribution and Mobilization of Safe Water System - Afghanistan

To produce and provide hypochlorite solution, plastic bottles and safe water storage containers for local families that come into various hospitals in Afghanistan. To provide education on the use of the treatment solution and storage vessels to raise awareness of the importance of the safe water system.

##### Partners and Grantees:

Bill & Melinda Gates Foundation  
Population Services International (PSI)  
Ministry of Health of Afghanistan  
National Center for Infectious Diseases, CDC

#### Combating Dengue Fever in Indonesia

To demonstrate that controlling mosquitoes in common household containers can dramatically reduce the incidence of dengue fever.

##### Partners and Grantees:

Infectious Disease Analysis  
Jean and Julius Tahija Family Foundation  
National Center for Infectious Diseases, CDC

#### Development of Rapid Assessment Methods and Tools To Better Meet the Health Needs of Displaced Persons

To develop and implement four pilot programs for the use of rapid assessment methods to measure behavioral risk factors and prevalence of HIV and other sexually transmitted infections in emergency-affected populations.

##### Partners and Grantees:

The Andrew W. Mellon Foundation  
National Center for Environmental Health, CDC

#### Emerging Infectious Diseases International Laboratory Fellowships

To prepare a cadre of trained laboratory leaders in infectious disease prevention and control throughout the world by providing year-long laboratory fellowships for international participants.

##### Partners and Grantees:

Association of Public Health Laboratories  
Eli Lilly and Company  
National Center for Infectious Diseases, CDC

#### Field Epidemiology Training Program in Brazil

To provide technical assistance to the Brazil Ministry of Health for the development of a Field Epidemiology Training Program and a Data for Decision-Making Program to train physicians and nurses to conduct surveillance and investigate disease outbreaks.

##### Partners and Grantees:

Brazil Ministry of Health  
The World Bank  
Epidemiology Program Office, CDC  
Office of Global Health, CDC

#### Field Epidemiology Training Program in India

To develop a cadre of Indian field epidemiologists with proficiency in identifying, investigating, and controlling infectious disease threats, including those caused by existing and potential agents of bioterrorism.

##### Partners and Grantees:

Nuclear Threat Initiative  
Epidemiology Program Office, CDC

#### Improving Health Care for Women and Children in Afghanistan

To support maternal and child health care surveillance training in Kabul and in four district-level programs in Afghanistan.

##### Partners and Grantees:

Bill & Melinda Gates Foundation  
National Center for Chronic Disease Prevention and Health Promotion, CDC

#### Joint Global Field Epidemiology and Laboratory Training Program in Kenya

To combine internationally based training for both laboratory scientists and epidemiologists in a setting where this training can utilize CDC's existing infrastructure investments for emerging infectious diseases in Kenya and support national and regional surveillance and response capacity.

##### Partners and Grantees:

The Ellison Medical Foundation  
Epidemiology Program Office, CDC  
Kenya Ministry of Health  
National Center for Infectious Diseases, CDC

#### Multi-Drug-Resistant Tuberculosis (MDRTB) Surveillance Program in Russia

To strengthen monitoring of MDRTB within the framework of overall TB monitoring activities in Russia.

##### Partners and Grantees:

Eli Lilly and Company  
National Center for Infectious Diseases, CDC

#### Multi-Drug Resistant Tuberculosis (MDRTB) Management and Training in Peru

To develop a model for MDRTB surveillance and control programs in resource-poor countries that includes research, training and technology components.

##### Partners and Grantees:

Bill & Melinda Gates Foundation  
Harvard University  
National Center for HIV, STD and TB Prevention, CDC

#### Protocol to Measure the Burden of Pneumonia in Mozambique

To conduct prospective, population-based surveillance for severe pneumonia in children 0 - 23 months of age in Manhica, Mozambique.

##### Partners and Grantees:

Program for Appropriate Technology in Health (PATH)  
National Center for Infectious Diseases, CDC

#### Rotavirus Vaccine Development in India

To develop a partnership with a local manufacturer to produce and test an oral rotavirus vaccine in India. To assess the burden and epidemiology of rotavirus and prepare methods to monitor the impact of a vaccination program.

##### Partners and Grantees:

Emory University, Department of Pediatrics  
Indian Institute of Science  
Program for Appropriate Technology in Health (PATH)  
National Center for Infectious Diseases, CDC

#### Safe Water Systems – Dhaka, Bangladesh

To implement a community-based program to promote the use of the Safe Water System (hypochlorite solution and effective storage containers) in local areas of Dhaka, Bangladesh.

##### Partners and Grantees:

Arch Chemicals, Inc.  
Dushtha Shashthya Kendra (DSK)  
Gangarosa International Health Foundation  
Research Foundation for Health and Environmental Effects  
World Health Organization, Bangladesh  
National Center for Infectious Diseases, CDC

#### STD Control in the Russian Federation Through Improvements in Laboratory Diagnostics

To improve laboratory diagnoses in order to control sexually transmitted diseases (STDs) in the Russian Federation by introducing modern diagnostic tests and screening approaches, determine the prevalence of STDs in different populations, and introduce sensitive STD screening methods in antenatal clinics.

##### Partners and Grantees:

Becton Dickinson and Company  
National Center for Infectious Diseases, CDC

#### Travelers Health Educational Activities – Yellow Book

To promote safety and wellness among U.S. travelers by updating the next edition of the "Yellow Book" to improve indexing, update clinical information, and address other travel safety topics.

##### Partners and Grantees:

GlaxoSmithKline  
National Center for Infectious Diseases, CDC

#### World Food Programme: Capacity Development

To provide guidance to the Nutrition Service of the United Nations World Food Programme (WFP) in developing a framework for collecting indicators of nutritional status used to monitor the results of WFP programs.

##### Partners and Grantees:

United Nations World Food Programme  
National Center for Environmental Health, CDC

### Healthy Life Stages

#### Avon/CDC Foundation Mobile Access Program

To award seven community organizations grants to implement mobile mammography screening programs to reach underserved women, such as the uninsured or those living in geographically remote areas.

##### Partners and Grantees:

American College of Radiology  
Avon Foundation  
Multiple Grantees  
National Center for Chronic Disease Prevention and Health Promotion, CDC

#### CDC Report Card on Aging

To develop a list of key health indicators and best practices for older adults.

##### Partners and Grantees:

Gerontological Society of America  
Merck Institute of Aging & Health  
National Center for Chronic Disease Prevention and Health Promotion, CDC

#### Estimation of Prevalence of Erectile Dysfunction in the U.S.

To estimate the prevalence of erectile dysfunction in the U.S. The study will be conducted as part of CDC's National Health and Nutrition Examination Survey and will identify the occurrence and severity of self-reported erectile dysfunction among U.S. males 40 and older.

##### Partners and Grantees:

Pfizer Inc.  
National Foundation for Sexual Health Medicine, Inc.  
National Center for Health Statistics, CDC

#### Healthy Swimming in the United States: Preventing the Spread of Recreational Water Illnesses at Aquatic Facilities

To conduct research on chemical, microbiologic and sampling/testing aspects pertinent to the spread of illnesses associated with the use of treated recreational water venues such as community swimming pools, hot tubs and water parks.

##### Partners and Grantees:

Arch Chemicals, Inc.  
National Swimming Pool Foundation  
National Center for Infectious Diseases, CDC

#### Inflammatory Bowel Disease (IBD)

To determine the incidence and prevalence of inflammatory bowel disease in the United States.

##### Partners and Grantees:

Crohn's & Colitis Foundation of America  
National Center for Infectious Diseases, CDC

#### Kansas – CDC Health Information Fellowship

To support CDC staff working in Kansas to integrate public health information at state and local levels.

##### Partners and Grantees:

Kansas Health Foundation  
Public Health Practice Program Office, CDC

#### Optimal Nutrition and Long-Term Health Project

To conduct data analysis and educational activities focused on the potential role of dietary supplementation to address specific nutritional needs. The project will emphasize the importance of specific nutrients in preventing birth defects and low birth weight as well as examine the nutrient status of an obese and dieting population.

##### Partners and Grantees:

BASF Corporation  
DSM Nutritional Products, Inc.  
National Council on Folic Acid  
National Healthy Mothers, Healthy Babies Coalition  
Wyeth Consumer Healthcare  
National Center for Chronic Disease Prevention and Health Promotion, CDC

#### Price Fellowships for HIV Prevention

To support one-month fellowships for leaders of community HIV prevention programs to improve communication and understanding among CDC scientists and community HIV program leaders.

##### Partners and Grantees:

The Price Foundation  
National Center for HIV, STD and TB Prevention, CDC

#### Promoting Better Health for Young People Through Physical Activity and Sports

To provide parents/guardians and school staff and administrators with a summary of the main messages and recommendations in *Promoting Better Health for Young People Through Physical Activity and Sports: A Report to the President from the Secretaries of Health and Human Services and Education*, specific actions they can take to implement the report's recommendations, and links to user-friendly tools to help them do so.

##### Partners and Grantees:

MetLife Foundation  
National Center for Chronic Disease Prevention and Health Promotion, CDC

#### Public-Private Fire Safety Council

To eliminate death by residential fire in the United States, reduce injuries and prevent resulting economic loss.

##### Partners and Grantees:

The American Burn Association  
American Insurance Association  
American Red Cross  
International Fire Marshals Association  
National Association of State Fire Marshals  
National Fire Protection Association  
National SAFEKIDS Campaign  
Underwriters Laboratories Inc.  
U.S. Department of Housing and Urban Development  
National Center for Injury Prevention and Control, CDC

# Celebrating 10 years of he

# PROGRAMS & PARTNERS

## REACH 2010 – Phase II

To continue the partnership with CDC focused on the implementation phase of REACH 2010 to support community approaches to eliminate racial and ethnic disparities in health in California.

### Partners and Grantees:

California Black Health Network  
The California Endowment  
Special Services for Groups  
National Center for Chronic Disease Prevention and Health Promotion, CDC

## State and Community Partnerships to Reduce and Prevent Tobacco Use

To design and implement tobacco prevention and control interventions; determine “best practices” in program planning and evaluation; translate research into practice by providing guidelines for the implementation of population-based programs; and enhance communication between health departments and national, state and local tobacco-control partners.

### Partners and Grantees:

American Legacy Foundation  
Columbia University  
Johns Hopkins University  
St. Louis University  
University of Alabama at Birmingham  
University of Arizona  
University of New Mexico  
University of North Carolina at Chapel Hill  
University of Oklahoma  
University of South Carolina  
National Center for Chronic Disease Prevention and Health Promotion, CDC

## Research and Education

### Alcohol-Related Disease Impact Software

To assist CDC in updating its Web-based alcohol-related disease impact software. The software will allow states to calculate mortality, years of potential life lost, direct health care costs, indirect morbidity and mortality costs, and non-health sector costs associated with alcohol misuse.

### Partners and Grantees:

The Robert Wood Johnson Foundation  
National Center for Chronic Disease Prevention and Health Promotion, CDC

### American STD Association National Conference

#### Partners and Grantees:

Merck & Co., Inc.  
National Center for HIV, STD and TB Prevention, CDC

### ATLAS Study - Testicular Germ Cell Carcinoma

To determine whether the development of testicular germ cell carcinoma is related to an individual's exposure to environmental pollutants.

### Partners and Grantees:

Fred Hutchinson Cancer Research Center  
National Center for Environmental Health, CDC

### The CDC Experience: Applied Epidemiology Fellowship

To provide medical students with an applied hands-on training experience in epidemiology and public health. Eight competitively selected third- and fourth-year medical students from around the country will spend up to one full year at CDC.

### Partners and Grantees:

The Pfizer Foundation  
Pfizer Inc.  
Epidemiology Program Office, CDC

### CDC Public Health Informatics Fellowship Program

To fund 20 fellows from CDC's Public Health Informatics Fellowship Program to attend the Public Health Information Network Conference.

### Partners and Grantees:

Northrop Grumman Mission Systems  
Epidemiology Program Office, CDC

### Center for the Health Assessment of Mothers and Children of Salinas

To evaluate exposure to organophosphate pesticides in pregnant women, farm workers or spouses of farm workers. These measurements along with birth outcome data can be used to investigate possible hormone-mediated effects of pesticide exposure.

### Partners and Grantees:

University of California, Berkeley  
National Center for Environmental Health, CDC

### Dioxins and Male Sexual Development

To determine levels of exposure to and the affects of endocrine-disrupting chemicals among adolescent males.

### Partners and Grantees:

Harvard University School of Public Health  
National Center for Environmental Health, CDC

### Effects of Perinatal Endocrine Disruptors in Children

To analyze serum samples from 7-year-old children to determine relevant organochlorine concentrations.

### Partners and Grantees:

Harvard School of Public Health  
National Center for Environmental Health, CDC

### Get Smart: Know When Antibiotics Work Campaign

To provide resources to support CDC's national campaign to promote discriminating use of antimicrobial agents. The campaign seeks to change behavior that leads to overuse of antimicrobial agents in adult and pediatric patients.

### Partners and Grantees:

Abbott Laboratories  
Aventis Pharmaceuticals  
Bayer AG  
Daiichi Pharmaceutical Co., Ltd.  
GlaxoSmithKline  
Multiple state partners  
National Center for Infectious Diseases, CDC

### Glial Fibrillary Acidic Protein – Neurotoxicity of Chemical Exposures

To support a study designed to assess the neurotoxicity of glial fibrillary acidic protein.

### Partners and Grantees:

American Petroleum Institute  
Lovelace Respiratory Research Institute  
National Institute for Occupational Safety and Health, CDC

### International Conference on Women and Infectious Disease

#### Partners and Grantees:

American Society for Microbiology  
Bill & Melinda Gates Foundation  
Pan American Health Organization  
U.S. Department of Health and Human Services (DHHS)  
World Health Organization  
National Center for Infectious Diseases, CDC

### Knight Public Health Journalism Fellowships at CDC

To support an ongoing fellowship program at CDC for working journalists from print, radio, television or Internet, who cover science, medicine, health or health policy and are committed to journalistic excellence in covering these fields.

### Partners and Grantees:

The California Wellness Foundation  
Jewish Healthcare Foundation  
Kansas Health Foundation  
John S. and James L. Knight Foundation  
Open Society Institute  
Epidemiology Program Office, CDC

### Latent Reproductive Effects of Gestational Exposures to Heptachlor

To study the relationship between pesticide exposure and human reproductive health effects.

### Partners and Grantees:

University of California, Irvine  
National Institute for Occupational Safety and Health, CDC

### Malaria Research and Reference Reagent Repository

To support a vector stock repository that supplies living and preserved laboratory cultured malaria-vector mosquitoes to researchers.

### Partners and Grantees:

American Type Culture Collection  
National Center for Infectious Disease, CDC

### National Immunization Conference 2004/Jeryl Lynn Hilleman Endowed Lecture

#### Partners and Grantees:

Merck & Co.  
National Immunization Program, CDC

### National Viral Hepatitis Roundtable

To facilitate the procurement of funds through the National Viral Hepatitis Roundtable, a coalition of public, private and voluntary organizations dedicated to reducing the incidence of infection, morbidity and mortality from viral hepatitis in the United States through strategic planning, leadership, coordination, advocacy and research.

### Partners and Grantees:

Bayer Corporation  
Bristol-Myers Squibb Company  
Chiron Corporation  
Gen-Probe, Inc.  
Gilead Sciences, Inc.  
GlaxoSmithKline  
Merck & Co.  
Roche Laboratories Inc.  
Schering-Plough Corporation  
Valeant Pharmaceuticals Intl.  
National Center for Infectious Diseases, CDC

### Phthalates in Nail Salon Workers

To measure phthalates in nail salon workers.

### Partners and Grantees:

Harvard School of Public Health  
National Center for Environmental Health, CDC

### Phthalates in Pregnant Women and Children

To measure the concentration of urinary phthalate metabolites in pregnant women and their children. The study will also examine sources of exposure and links of phthalate levels to alterations in reproductive development.

### Partners and Grantees:

University of Missouri, Columbia  
National Center for Environmental Health, CDC

### Physical Activity Policy and Environmental Research Initiative

To encourage trans-disciplinary collaboration and build a research field that identifies environmental factors and public and private policies that have the potential to influence physical activity and sedentary behavior throughout the population of the United States.

### Partners and Grantees:

San Diego State University Foundation  
National Center for Chronic Disease Prevention and Health Promotion, CDC

### Physical Inactivity and Sedentary Lifestyles

To assess the health and economic impact of physical inactivity and sedentary lifestyles.

### Partners and Grantees:

The Robert Wood Johnson Foundation  
National Center for Chronic Disease Prevention and Health Promotion, CDC

### Prevent Antimicrobial Resistance Campaign

To develop a series of health communications aimed at increasing awareness among physicians of CDC's goals of preventing the spread of antimicrobial resistance. The goal of this initiative is to develop an integrated program to prevent emergence and spread of antimicrobial-resistant infections among patients in healthcare settings.

### Partners and Grantees:

Becton Dickinson and Company  
National Foundation for Infectious Diseases  
Ortho-McNeil Pharmaceutical, Inc.  
Premier, Inc.  
The Sally Schieffelin Potter Endowment Fund  
WellPoint Foundation  
National Center for Infectious Diseases, CDC

### Sharps Safety Program

To eliminate among health care workers the spread of disease caused by injury from infected needles and other sharp instruments that come in contact with patients in health care settings.

### Partners and Grantees:

Safety Institute, Premier, Inc.  
National Center for Infectious Diseases, CDC

### Young Investigators in Public Health

To conduct a collaborative demonstration project for extramural research designed to attract talented young scientists to public health research.

### Partners and Grantees:

The Rollins School of Public Health of Emory University  
The Robert W. Woodruff Foundation, Inc.  
Office of the Director, CDC

Helping CDC do more, *faster*

Change in net assets	
Unrestricted	(531,803)
Temporarily restricted	(2,228,797)
Permanently restricted	176,331
<b>Change in net assets</b>	<b>(2,584,269)</b>
<b>Net assets at beginning of year</b>	<b>26,146,715</b>
<b>Net assets at end of year</b>	<b>23,562,446</b>

Note: These statements have not been audited.

The Foundation disburses the majority of its project funds as cost reimbursement agreements. As the disbursement of funds from the Foundation is contingent upon the recipient properly expending and documenting the expenditures, project disbursements are not accrued by the Foundation at the time of the initial gift. As of June 30, 2004, the expected project disbursements were \$19,656,077.
